All prices above exclude delivery. Delivery is to be paid by you, using your courier of choice.

I guarantee you that if you distribute your pamphlets and get your business cards out; you will receive calls and will need to buy stock.

If you are interested in going ahead, you will need to pay for the start-up kit and your goods will be on their way to you in approximately 3 weeks.

Once you have purchased the start up kit, your contact details will be added to our website under your area, but we would like you to have your pamphlets distributed within a month of receiving them. You will receive calls and therefore should start averaging approximately 200m per month. We request this so that we don't have areas being taken by people / companies and not being worked.

Any stock that you require will be sent to you **at your delivery cost**. The only time we pay for delivery is when an order of R60 000 or more is made.

Kind regards.
